Always the best climate for

UNIQUE DESIGN AND FRESH AIR

for finest indoor air comfort with
Zehnder ComfoValve Luna supply
and extract air valve

Valve series
extension
NEW!
Zehnder
ComfoValve
Luna E

The Zehnder ComfoValve Luna family cares for your comfort at home

The Zehnder ComfoValve Luna series provides an ideal solution for the perfect indoor air climate. Both valves impress with a perfectly matched slim and discreet design. Thanks to the incredibly quiet air flows, the valves meet the most stringent of requirements with regard to noise and performance whilst delivering maximum living comfort.

Benefits

for users

- +** **Unique design:** A timeless, slim and discreet design combined with an unchanged adjustment height of 30 mm, ensuring harmonious integration into any interiors
- +** **High comfort:** the Zehnder ComfoValve Luna S and E supply and extract air valves deliver maximum living comfort through super silent air flows and highest performance
- +** **Perfect combination:** Ideally for combining both valves in open living/dining kitchens due to their perfectly harmonized design

Zehnder ComfoValve Luna E
extract air valve
removes the used air to the outside

Unique design from one source

The unique timeless design from one source allows the ideal combination of both valves in open living/dining kitchens. With an unchanged installation height of 30 mm despite changes to the air flow adjustment positions, the valves ensure a harmonious and discreet integration into any interior.

**Unique
harmonized
design**

**Perfect
combination**

**Super
silent**

for professionals

-  **Time saving commissioning:** thanks to the flow setting scale and the rastered adjustment positions which allow precise and easy adjustment as well as instant documentation of the valve position during commissioning
-  **Peace-of-mind:** locking the air flow setting prevents it being modified inadvertently during maintenance
-  **Customer satisfaction:** high level of customer satisfaction through carefully selected, high-quality materials which are UV-resistant, scratch-resistant, colourfast and easy to clean
